ABOUT ME

A highly motivated software developer with a strong background in backend development using JavaScript, Express, and MongoDB. Seeking to leverage my skills and experience to contribute to innovative projects and grow within a dynamic tech company. I am passionate about continuous learning and am eager to collaborate with diverse teams to deliver impactful solutions. My goal is to work on challenging projects that require creative problem-solving and technical proficiency. I am committed to not only meeting but exceeding expectations through dedication, hard work, and a proactive approach to overcoming obstacles.

WORK EXPERIENCE

Freelance

2024 - Present

- Commissioned work developing the asked back-end.
- Developed a full-featured e-commerce platform using Node.js, Express, and MongoDB.
- Implemented user authentication, product management, and order processing functionalities

No-Country (Work Simulation)

2024 - 2024

- Led a team of backend developers to design and implement RESTful APIs using JavaScript, Express, and MongoDB.
- Worked closely with front-end developers and UX/UI designers to create a seamless user experience.
- Improved application performance by optimizing database queries and implementing caching mechanisms.

LANGUAGES

- English
- Spanish

- Collaborated with a diverse team to build a web application from scratch, using TypeScript, Express, and MongoDB.
- Took on the additional role of manual QA, ensuring the quality and reliability of the application.
- Successfully delivered the project on time, receiving positive feedback from peers and mentors.
